Fun Fact

It costs more than a cent to make a cent

In the US, it costs roughly 2 cents to make a 1-cent coin. For a nickel (5 cents), it's 7.5 cents. In 2018, it's estimated that cent production cost the US taxpayer an extra $85.4 million and nickel production an extra $33.5 million.

Career Opportunities After B.Com Professional Course

India is more of an accounting firm than management. Companies like WIPRO, HP, and Usha International lay off employees. People who complete CIMA have higher work opportunities. The benefits of CIMA include better access to VISAs, reduced pay, higher price tags, and more experience. Knowing your area of interest can help you pursue your selected course and participate in internships during your senior year. Join startup companies as a fresher since it will help you develop your talents. Being mature and socially engaged will also help you anticipate interviewing questions.

When a subject is mentioned in an interview, the interviewer merely wants to grasp the fundamentals and be able to explain them to others. We will eventually get information if we are confident. Many of us are unaware of the necessity of speaking and presentation skills. On an open mic, we must speak our minds.

The ZAT should be offered for XLRI because it is a great college for HR students. You can begin your career in project management at an MNC. Project management and human resources are completely different fields of employment. Join coffeemug.ai to expand your professional network. It links you up with professionals in the field. Just schedule a 30-minute appointment. Create a research profile, sign up with a market research firm, or go into academia to conduct market research. Digital marketing inventiveness is necessary for marketing. CIMA is well-known and aids in our development. Obtain exemptions in numerous papers as well. 2014 had high hiring rates for CIMA employees. In the commerce sector, CA and CS are at the top.

Green Talk, Green Pledge and Nukkad Natak

Delhi's National Zoological Park is one of the favorite hangout areas for families, particularly the ones with small kids. Located in the heart of the city, Delhi Zoo is spread in an area of 176 acres and is situated near the Old Fort. The National Zoological Park houses about 1350 animals and birds of over 130 species, sourced from across the globe. From the Royal Bengal Tiger to the Indian Rhinoceros, Swamp Deer, Asiatic Lion, Brow Antlered Deer, and Red Jungle Fowl, the Delhi Zoo houses them all. The zoo not only provides a home for endangered species, but also helps them to breed well in captivity. Some of the special attractions at the Zoo include White Tiger, Gaur, Jaguar, Rhinoceros, Elephants, Brow-antlered Deer (Sangai), Lion-tailed Macaque, Migratory birds (during winters) etc.

Students of the School of Commerce, Finance, and Accountancy at Christ University, Delhi NCR performed at the Green Talk, Green Pledge, and Nukkad Natak organized by the National Museum of Natural History under the Ministry of Environment, Forests and Climate Change, Government of India at the National Zoological Park on 18 January 2023. There were 1473 other school students who also participated in this creative event. The students performed really well and encouraged the people to Plant trees.The main Objective was to bring in awareness among students to save treas practicing green habits and also spread the message in neighborhood community.

Guest Lecture on Monetary and Fiscal policy

As rightly said, great influencers and knowledgeable people require the target audience to spread their ocean of knowledge and information. On 25th January 2023, Prof. R. Venkataraman along with Mr. Kapil Chaprana and Mr. Rantu Paul was invited to Christ(Deemed To Be University) Delhi Ncr, by the School Of Commerce Finance And Accountancy (SCFA) for an informative guest lecture on monetary and fiscal policy. The session was of a 2-hour duration which was mostly about how the Government of India regulates Fiscal Policies and the Central Bank Of India, RBI regulates Monetary Policies.

The session started with welcoming the guest speaker and the other members who helped in the coordination of the event. After this, Prof. R. Venkataraman started by explaining the meaning and importance of money supply control and wealth creation by changing the interest rates and money generation. He also taught us the importance and the procedure of calculating the CPI of the country and also inflation. His insights about the country's budget proved to be of great importance and helped the students as they were able to connect and also understand the concept of Finance And Banking. This was a very insightful session as students interacted with the chief guest speaker and eagerly enjoyed it. The impact of crypto and its relevance were also shared with the students. Repo rates, discount rates, bank rates, etc were also taught and given an insight into during the session.

After all of this, lastly, the game changer of the session proved to be the topic of inflation where students understood the true meaning and the impact of the inflation rates and compared it with different economies of the world and where did India stand on the list. After all of these discussions, finally, after two hours of brainstorming and an exuberant session, the lecture came to a rest. Feedback forms were then circulated among the students. Lastly, a vote of thanks was delivered by a student of 4BCOM(h) in which the The Head Of the Department along with the IT Department was thanked for their tremendous support and guidance. Also, our Dean And Director along with our Campus Administrator and faculty members were given heartfelt gratitude for their guidance. With this, the session finally ended.

Pavilion MISSION LiFE - Ministry of Environment, Forests & Climate Change

Ministry of Tourism has been designated as the nodal Ministry for the event, the highlights of which include showcasing of the best Republic Day Parade tableaux at the venue, performances by the 3-Armed Forces bands (static and moving), cultural performances by the Zonal Cultural Centers as well as cultural troupes from States/ UTs, a Pan-India Food Court with 60 food stalls and a pan – India Crafts Bazaar with 65 handicraft stalls.

Shri Bhupender Yadav, Honorable Minister for Environment, Forest, and Climate Change, engaged with the students of the School of Commerce, Finance, and Accountancy at Christ University, Delhi NCR on 27th January 2023 at Pavilion MISSION LiFE of Ministry of Environment, Forests and Climate Change, Government of India.

This is part of the "Bharat Parv" 2023 event hosted by the Government of India from 26th to 31st January 2023 at the Lawns and Gyan Path in front of the Red Fort in Delhi as part of the Republic Day Celebrations.

The Ministry of Tourism has been designated as the nodal Ministry for the event, and the

highlights of which include performances by the 3-Armed Forces bands (static and moving), cultural performances by the Zonal Cultural Centers as well as cultural troupes from States/ UTs, a pan-India Food Court with 60 food stalls, and a pan-India Crafts Bazaar with 65 handicraft stalls.

Gyan Stambh - Demystifying Barriers

Dr. Abhijit Chattoraj, the Deen Bimtech, Greater Noida was the guest speaker and the chief guest for the event. Dr.Chattoraj is a well-known and established insurance academician and a professional with international acclaim. He is a Chartered Insurer and also a Goodwill Ambassador of the Chartered Insurance Institute in India; he is also currently the Hon. Vice President of the Risk Management Association of India and a member of FICCI –Health.

An ace presenter in health insurance, other general insurance subjects, and marketing, Dr.Chattoraj powers his delivery with a proactive attitude, out of the box thinking leading to the generation of new solutions and ideas. He uses his rich exposure in underwriting and claims management in the general insurance business- to the hilt while engaging with his audience. He is a keen researcher and consultant and has been engaged with the insurance industry with several live research projects.

Prof Jossy Peter, the overall coordinator of insurance for all the campuses of Christ(Deemed To Be) University, was the moderator for the event. This event started with the emcees inviting the chief guest to speak about his experience as well as his journey in the insurance sector.

Following all of this, as the speech ended, Prof Jossy Peter and Dr. Abhijit Chattoraj took their seats on the stage for further discussions on the topic in the form of a panel discussion. They specifically talked about the obstacles and hindrances that could come with the flawless and educational journey of the insurance sector. In different countries, what all risks were there that could be avoided in this journey, and what that could be done to prevent all of this? Also, the discussion continued when the topic changed to the different certifications that were required to excel in this field.

CIII was one certification that he stressed a lot about. Ayushman Bharat is a good initiative that is taken by the Government of India as he said. They also spoke for the appreciation of the Indian Army which was fighting for the country on the border of India. After the relevance of the certifications, sir asked because of the shortage of timing for a question from the audience.

After this, the emcees took over and thanked sir for the amazing knowledge that he decided to share with us. Dr. Abhishek Maheshwari delivered a vote of thanks for the event. The event ended with the Christ Anthem.

Industry Interface Program

Dr. Ayush Kumar, a management consultant at KPMG India, delivered a seminar titled "Demystifying Annual Reports." The seminar was aimed at providing the participants with knowledge and tools to help them read financial statements and understand their implications.

Dr. Ayush Kumar is an alumnus of XLRI Jamshedpur and has over six years of diverse experience in education, healthcare, and the elevator industry. He has worked with companies at all stages of their life cycle, enabling him to understand their business practices at a granular level. He has won case competitions across IIM B, IIM C, NITIE, SP Jain, and IIM Indore during his MBA. He founded Kautilya, XLRI's Consulting Club, and was the Convenor for XLRI's flagship Clock Speed Supply Chain Conclave. He has also been a Professional Mentor with XLRI Jamshedpur since 2021, where he has held sessions and workshops on career choices, resume best practices, and cracking consulting cases, having personally helped 100+ students at each step of their journey.

Dr. Ayush began by explaining the key terminology of finance and auditing, such as CAGR and EBITDA ratio, and their meaning. He then took the example of Hero Moto Corp, where he discussed the capacity utilization of 52%. He then discussed the new division of electric two-wheelers and how Hero Moto Corp has a 33% stake at Ather, a leading two-wheeler company, and has its own in-house electric scooter company named Vida, and a battery swapping company named Gogoro. Dr. Kumar also gave the example of Tesla and explained how they created a network of superchargers across the US, which is similar to what Hero is trying to do. The goal of the seminar was to help demystify the financial statements and give participants tools and knowledge to allow them to make quick financial decisions. He then answered the participants' questions regarding placements and doubts about reading annual reports and what they represent.

The seminar conducted by Ayush Kumar, a management consultant at KPMG India, was a success. Ayush's extensive knowledge and experience in the field of business and consulting helped the participants to gain insights into reading financial statements and understanding their implications. The seminar was a great learning experience for the participants, and they left with new tools and knowledge to make quick financial decisions.
