GUEST LECTURE ON ESG AND FINANCE

The event was held in Block A Seminar Hall from 02:30 pm-03:30 pm. The guest speaker for the occasion was Mr. Jim Gourowka, Senior President-IMA (US-CMA) of The Association of Accounts and Financial professionals in Business.

The seminar was focused on ESG/ Sustainability landscape in India. For banks and insurers, the financial risks of climate change are in sharp focus as regulators set out expectations for stress testing and climate risk management. Asset and fund managers and asset owners are being required by regulators and investors to embed sustainable investment throughout their businesses and to consider the full spectrum of ESG.

The search for consistency remains a priority. The key to achieving this, and enabling the development of reliable market data, will be standardized definitions of E, S, and G, globally. Recognizing the challenges that companies are facing in making ESG disclosures, standard-setting bodies are seeking to enhance and align their approaches to corporate reporting, both financial and non-financial.

Sustainable business re-examines the purpose of an organization from generating profits for shareholders to preserving and growing an entity's value in a way that produces for all its stakeholders over the long term.

ASHRAY SEMINAR

STRAW India is a registered non-profit organization with the vision to create a country where people treat each other with empathy and animals with compassion through the medium of education. During the last decade, they've sensitized over 25,000 children and college students to be kind to animals.

The session which was organized by STRAW India focused on feeding dogs within the community and campus. The guest speaker was Dr. Dinesh Mohite, a veterinarian majoring in surgery, with 18 years of experience in animal health and welfare in various national and international organizations. Currently, he is associated with FIAPO as head of animal health and welfare.

Dr. Mohite advised the students to feed the stray dogs and animals at least 1 meal a day which would prevent accidents. He also informed the students on how they can provide first aid to the free-roaming animals and how to protect the animals from any harm. He ended the session by advising the students on what to keep in the first aid kit and suggested keeping a list of contacts to connect with in case of emergency

CREATIVE CORNER

THE UNDEAD MAN

- Mithun Ram

The man undead hung onto their
shoulder
Slipping them stories of greatness once
were
He weighed down on them like
monsoon grey
Far from a parasite, a destined friend
Making them beautiful as he cut them
down
They were the poem I dare not write
For it is the withering flower that holds
unfiltered beauty
Moments held beauty as they forgot to
last
Love slithered in deep, only to let go
A sweet corruption with every passing
sip
Stories were soothing as they went
mute
Rustling wind grew loud with silence
As the heart skipped every other beat

SONG OF LIFE

- Allen Mathew

Nightmares daunt me all the time
Fake courage I forge just to live
Often I feel my breath constricted,
It matches my grandmother long
buried and gone
I find solace in darkness and
contentment in void
I had envisioned my path ahead.
I trusted the norms but life considered
me different.

STOCK TALK : SERIES

Financial Planning And Advisory Cell
