

**School of Commerce, Finance and
Accountancy**

**Student's Curriculum Feedback Analysis
and Action Taken Report**

**BCOM International Accountancy &
Finance (IAF) Batch 2023-27**

**CHRIST (Deemed to be University), Delhi
NCR**

Survey Open Date - 02 January, 2024

Survey End Date - 11 March, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from December 2023 to March 2024.

The feedback analysis for students focuses on the curriculum and its learning-related aspects, including quality, competence, skills, and professionalism. It also takes into account issues pertaining to the delivery of the curriculum by teachers. The feedback is collected from students of Christ University. Similar to the process for teachers, the report of the response analysis is received by the university's vice chancellor or pro-vice chancellor. They further transmit it to the Internal Quality Assurance Cell (IQAC) for any necessary actions. Instructions based on the analysis are then provided to the heads of constituent colleges, who subsequently guide their respective departments to undertake appropriate steps and actions to address the concerns raised by the students.

The Students provided the feedback on curriculum which are explained later in the report. The questions were on the Likert-Scale (1 to 5) which are as follows:

1	Need to improve
2	Average
3	Satisfactory
4	Good
5	Excellent

Response Summary-

Classes	Total Students	% of Responses
1BCOM IAF	27	100
2BCOM IAF	27	100

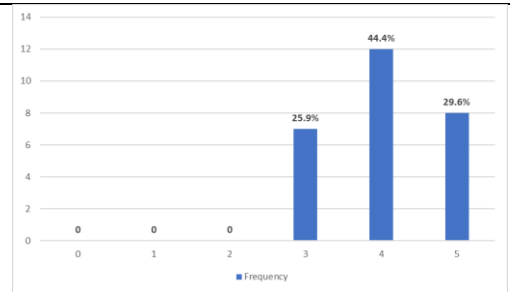

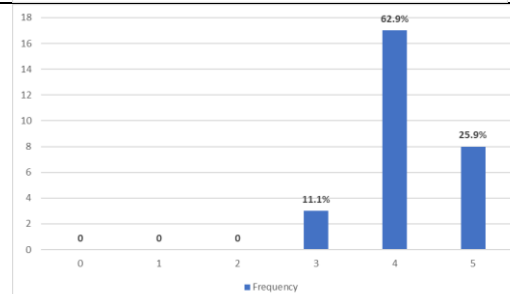

Summary Report for 1 BCOM IAF:

Below is the list of courses for 1 BCOM IAF on the basis of which the feedback was taken by the students:

S.NO	Course Code	Title of the Course
1	BIAF101-1	Financial Accounting
2	DPS102-1	Business Management and Organizational Behaviour
3	BIAF103-1	Business Economics
4	DPS161-1	Organisational Study
5		English - I
6		Languages – Hindi & French
7		Multidisciplinary
8		Environmental Studies
9		Holistic Education - I
10		Bridge Course in Accounting and Economics

Below is the Curriculum Feedback summary report for 1BCOMIAF Course on following parameters:

S.N O	Questions	Response/ Feedback	Graphical Presentation												
1	Does the Syllabus match the course outcomes and the program outcomes stated in the Program Curriculum ?	Overall, students were satisfied and said that the content of the curriculum satisfied the stated objectives and learning outcomes. Out of which 29.6% rated excellent, 44.4% students rated good, 25.9% satisfactory.	 <table border="1"> <caption>Frequency Distribution for Question 1</caption> <thead> <tr> <th>Rating</th> <th>Frequency</th> <th>Percentage</th> </tr> </thead> <tbody> <tr> <td>3</td> <td>7</td> <td>25.9%</td> </tr> <tr> <td>4</td> <td>12</td> <td>44.4%</td> </tr> <tr> <td>5</td> <td>9</td> <td>29.6%</td> </tr> </tbody> </table>	Rating	Frequency	Percentage	3	7	25.9%	4	12	44.4%	5	9	29.6%

Overall Analysis

General Comments and Suggestions:

1. After the mid sem exam the syllabus is interesting and studies are going well.
2. Currently the whole curriculum is good and topics are clear.
3. Everything is good
4. Classes are fine as of now
5. Fantastic subjects
6. Satisfied with my course
7. The curriculum keeps the students well engaged with practical as well as theoretical studies.
8. Everything is perfect.
9. yes, i'm satisfied with the content received in the current semester and also it motivated or helped us in ways to self-study and research.

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BCOM International Accountancy and Finance (IAF) students of Batch 2023-27. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BoS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting. The meeting was held during BoS of BCOM IAF programme.

The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

Survey Open Date- 02 January, 2024

Survey End Date- 11 March, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from January 2024 to March 2024.

The feedback analysis for students focuses on the curriculum and its learning-related aspects, including quality, competence, skills, and professionalism. It also takes into account issues pertaining to the delivery of the curriculum by teachers. The feedback is collected from students of Christ University. Similar to the process for teachers, the report of the response analysis is received by the university's vice chancellor or pro-vice chancellor. They further transmit it to the Internal Quality Assurance Cell (IQAC) for any necessary actions. Instructions based on the analysis are then provided to the heads of constituent colleges, who subsequently guide their respective departments to undertake appropriate steps and actions to address the concerns raised by the students.

The Students provided the feedback on curriculum which are explained later in the report. The questions were on the Likert-Scale (1 to 5) which are as follows:

1	Need to improve
2	Average
3	Satisfactory
4	Good
5	Excellent

12	General Comments and Suggestions:	Curriculum is good and well aligned with CA Program, No change is required.													

Overall Analysis

General Comments and Suggestions:

1. Curriculum is according to CA Syllabus
2. Curriculum is well balanced and well structured.
3. Academics is quite hectic but of good quality
4. Professional classes have been comprehensive and good in terms of content and delivery.
5. Supportive Faculty members, they are proficient in their subjects.
6. As of now no changes are required in the Curricula

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BCOM (Accountancy and Auditing) students of Batch 2023-26. The students responded to the feedback for First semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback.

The students are by and large are convinced about the program structure, syllabus and its close alignment with CA Program. They are also satisfied with professional classes however there is a need to greater streamlining the academics related to B.Com and CA program as it amounts to long hours of classroom teaching.

Syllabus of the Third and Fourth Semester has been prepared according to the new scheme of study of the CA Program. After the completion of the second semester, students will be encouraged to take up internships.

Survey Open Date - October 26, 2023

Survey End Date - January 30, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from October to January 2024.

The Curriculum Feedback Analysis and Action Taken Report Policy is established to ensure the continuous enhancement and improvement of educational programs.

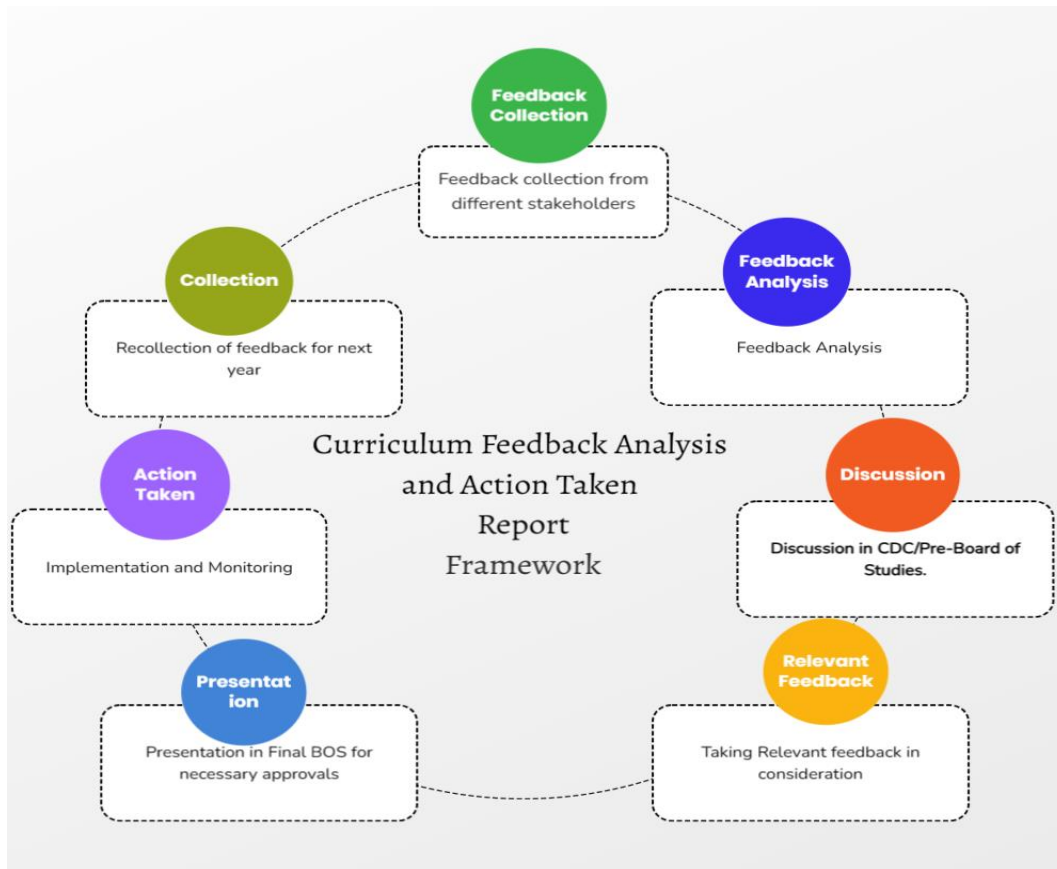

Policy

The policy aims to collect feedback from stakeholders, including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum, such as content, delivery methods, assessment strategies, and learning outcomes. Through systematic analysis of this feedback, in the form of introduction of new subjects trends, and areas for improvement are identified as a form of feedback analysis after this discussion in CDC/BOS

The finalized Action Taken Report outlines specific recommendations for curriculum enhancements, modifications, or revisions. This process involves multiple steps, including the collection of feedback, analysis, approval of the Action Taken Report, implementation of actions, and communication with stakeholders.

A flow chart illustrating this process ensures clarity and consistency in the execution of each step.

Feedback collection -

Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum. Feedback collection stands as a crucial endeavor in our pursuit of academic excellence, involving stakeholders such as students, faculty, administrators, and industry partners, alongside academic peers. This multifaceted feedback provides invaluable insights into various aspects of our curriculum, aiding in its continual refinement to meet the evolving needs of our educational community.

Process of feedback analysis

In the process of feedback analysis, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes play a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty,

administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC team members and class teachers of respective classes ensure that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of discussing feedback entails convening meetings of the Curriculum Development Committee (CDC) and a pre-board meeting of the Board of Studies, these gatherings serve as critical forums for in-depth deliberations on the feedback received from various stakeholders regarding the curriculum, through collaborative dialogue and thorough examination, the CDC and Board of Studies analyze the feedback to discern overarching themes, identify areas of strength, and pinpoint opportunities for enhancement within the curriculum. These meetings not only facilitate alignment with academic standards and institutional goals but also foster a culture of continuous improvement in our educational endeavors.

Feedback collection - Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum

process of feedback analysis

In the process of discussion of Feedback a meeting will be called of CDC curriculum development committee and a pre- board meeting of Board of studies , the Internal Quality Assurance Cell (IQAC)team members and class teachers of respective classes plays a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC ensures that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of taking relevant feedback in consideration

The process of taking relevant feedback into consideration involves several key steps aimed at ensuring a comprehensive and systematic approach. Firstly, feedback is collected from diverse stakeholders, including students, faculty, administrators, industry partners, and academic peers, through surveys, focus groups, interviews, and other means. Next, the feedback is meticulously reviewed and categorized to identify recurring themes, areas of consensus, and specific suggestions for improvement. Subsequently, a structured discussion is held within relevant committees, such as the Curriculum Development Committee (CDC) and the Board of Studies, where the feedback is thoroughly analyzed, and potential implications for the curriculum are explored. Throughout this process, emphasis is placed on prioritizing feedback that aligns with institutional goals, academic standards, and emerging trends in the field. Finally, decisions are made regarding the integration of feedback into the curriculum, considering factors such as feasibility, resource availability, and anticipated impact on student learning outcomes. This iterative process of feedback collection and analysis ensures that the curriculum remains responsive to the evolving needs of stakeholders and continues to uphold the highest standards of academic excellence.

Presentation of analysis in final BOS for necessary approvals

During the final Board of Studies (BOS) presentation, the comprehensive analysis of feedback collected from various stakeholders was meticulously presented to facilitate necessary approvals for improvements in our curriculum and educational practices. The analysis process involved thorough examination and categorization of feedback to identify recurring themes, areas of consensus, and specific suggestions for enhancement. Through structured discussions within the BOS, key areas for improvement were identified based on the insights gleaned from the feedback analysis. By presenting the analysis in a clear and concise manner, the BOS members were able to gain a holistic understanding of the feedback and its implications for curriculum development. Ultimately, the presentation served as a crucial step towards obtaining necessary approvals for implementing changes aimed at enhancing the quality and relevance of our educational offerings.

Following the thorough analysis of feedback and identification of key areas for improvement

in our curriculum and educational practices, proactive actions were taken to implement necessary changes. These actions included revising course materials, updating teaching methodologies, enhancing assessment practices, and incorporating emerging trends and industry standards. Additionally, a robust monitoring system was established to track the progress of implementation and evaluate the effectiveness of the changes made. Regular feedback loops were established to gather input from stakeholders and make adjustments as needed. By taking decisive actions and closely monitoring the implementation process, we aimed to ensure that the feedback analysis translated into tangible improvements that positively impacted the educational experience of our students.

Overall Analysis

General Comments and Suggestions:

1. After the mid sem exam the syllabus is interesting and studies are going well.
2. Currently the whole curriculum is good and topics are clear.
3. Everything is good
4. Classes are fine as of now
5. Fantastic subjects
6. Satisfied with my course
7. The curriculum keeps the students well engaged with practical as well as theoretical studies.
8. Everything is perfect.
9. yes, i'm satisfied with the content received in the current semester and also it motivated or helped us in ways to self study and research.

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BCOM (Professional) students of Batch 2022-25. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BoS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting. The meeting was held during the BoS of BCOMP programme. The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

BCOM (Professional) Batch 2021-24

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BCOM (Professional) students of Batch 2021-24. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BOS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting. The meeting was held during the BoS of BCOMP programme. The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BOS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on a regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BOS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

**CHRIST (Deemed to be University)
Delhi-NCR Campus**

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from October to January 2024.

The Curriculum Feedback Analysis and Action Taken Report Policy is established to ensure the continuous enhancement and improvement of educational programs.

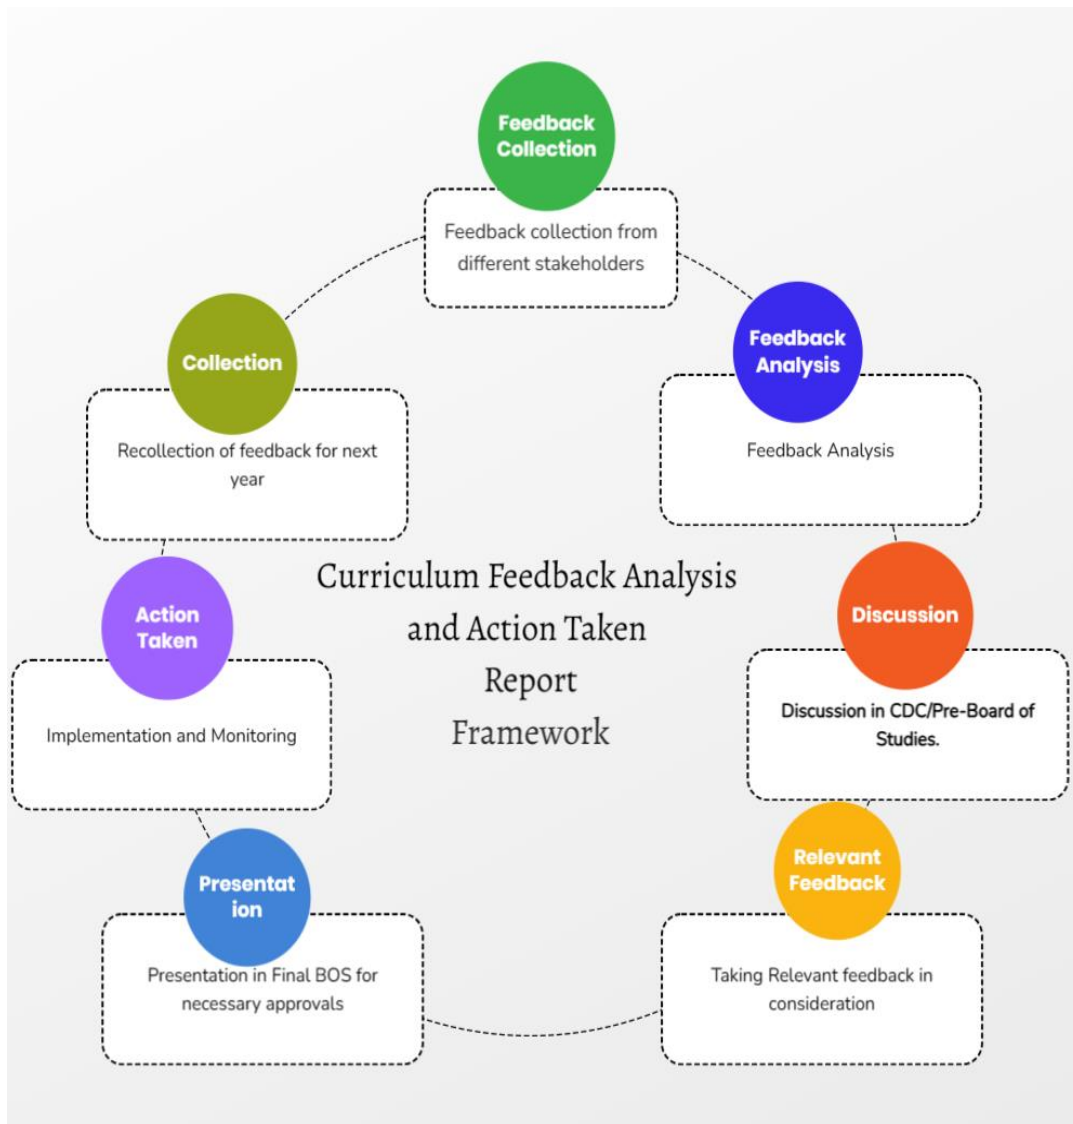

Policy

The policy aims to collect feedback from stakeholders, including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum, such as content, delivery methods, assessment strategies, and learning outcomes. Through systematic analysis of this feedback, in the form of introduction of new subjects, trends, and areas for improvement are identified as a form of feedback analysis after this discussion in CDC/BOS.

The finalized Action Taken Report outlines specific recommendations for curriculum enhancements, modifications, or revisions. This process involves multiple steps, including the collection of feedback, analysis, approval of the Action Taken Report, implementation of actions, and communication with stakeholders.

A flow chart illustrating this process ensures clarity and consistency in the execution of each step.

Feedback collection –

Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum. Feedback collection stands as a crucial endeavor in our pursuit of academic excellence, involving stakeholders such as students, faculty, administrators, and industry partners, alongside academic peers. This multifaceted feedback provides invaluable insights into various aspects of our curriculum, aiding in its continual refinement to meet the evolving needs of our educational community.

Process of feedback analysis

In the process of feedback analysis, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes play a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC team members and class teachers of respective classes ensure that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of discussing feedback entails convening meetings of the Curriculum Development Committee (CDC) and a pre-board meeting of the Board of Studies, these gatherings serve as critical forums for in-depth deliberations on the feedback received from various stakeholders regarding the curriculum, through collaborative dialogue and thorough examination, the CDC and Board of Studies analyze the feedback to discern overarching themes, identify areas of strength, and pinpoint opportunities for enhancement within the curriculum. These meetings not only facilitate alignment with academic standards and institutional goals but also foster a culture of continuous improvement in our educational endeavors.

Feedback collection - Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum process of feedback analysis.

In the process of discussion of Feedback a meeting will be called of CDC curriculum development committee and a pre- board meeting of Board of studies , the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes plays a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools,

the IQAC ensures that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of taking relevant feedback in consideration

The process of taking relevant feedback into consideration involves several key steps aimed at ensuring a comprehensive and systematic approach. Firstly, feedback is collected from diverse stakeholders, including students, faculty, administrators, industry partners, and academic peers, through surveys, focus groups, interviews, and other means. Next, the feedback is meticulously reviewed and categorized to identify recurring themes, areas of consensus, and specific suggestions for improvement. Subsequently, a structured discussion is held within relevant committees, such as the Curriculum Development Committee (CDC) and the Board of Studies, where the feedback is thoroughly analyzed, and potential implications for the curriculum are explored. Throughout this process, emphasis is placed on prioritizing feedback that aligns with institutional goals, academic standards, and emerging trends in the field. Finally, decisions are made regarding the integration of feedback into the curriculum, considering factors such as feasibility, resource availability, and anticipated impact on student learning outcomes. This iterative process of feedback collection and analysis ensures that the curriculum remains responsive to the evolving needs of stakeholders and continues to uphold the highest standards of academic excellence.

Presentation of analysis in final BOS for necessary approvals

During the final Board of Studies (BOS) presentation, the comprehensive analysis of feedback collected from various stakeholders was meticulously presented to facilitate necessary approvals for improvements in our curriculum and educational practices. The analysis process involved thorough examination and categorization of feedback to identify recurring themes, areas of consensus, and specific suggestions for enhancement. Through structured discussions within the BOS, key areas for improvement were identified based on the insights gleaned from the feedback analysis. By presenting the analysis in a clear and concise manner, the BOS members were able to gain a holistic understanding of the feedback and its implications for curriculum

development. Ultimately, the presentation served as a crucial step towards obtaining necessary approvals for implementing changes aimed at enhancing the quality and relevance of our educational offerings.

Following the thorough analysis of feedback and identification of key areas for improvement in our curriculum and educational practices, proactive actions were taken to implement necessary changes. These actions included revising course materials, updating teaching methodologies, enhancing assessment practices, and incorporating emerging trends and industry standards. Additionally, a robust monitoring system was established to track the progress of implementation and evaluate the effectiveness of the changes made. Regular feedback loops were established to gather input from stakeholders and make adjustments as needed. By taking decisive actions and closely monitoring the implementation process, we aimed to ensure that the feedback analysis translated into tangible improvements that positively impacted the educational experience of our students.

12	General Comments and Suggestions:	No comment, overall good, Excellent, Good, Very Good, Nice, Interactive, Interesting													

General Comments and Suggestions:

1. After the mid sem exam the syllabus is interesting and studies are going well.
2. Currently the whole curriculum is good and topics are clear.
3. Everything is good
4. Classes are fine as of now
5. Fantastic subjects
6. Satisfied with my course
7. The curriculum keeps the students well engaged with practical as well as theoretical studies.
8. Everything is perfect.
9. Yes, i'm satisfied with the content received in the current semester and also it motivated or helped us in ways to self study and research.

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BBA (Finance and Accountancy) students of Batch 2022-25. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BoS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting. The meeting was held during BoS of BBAFA programme. The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

BBA (Finance & Accountancy) Batch 2021-24

Response Summary-

Classes	Total Students	Students Responded	% of Responses
5BBAFA	38	36	98
6BBAFA	39	35	96

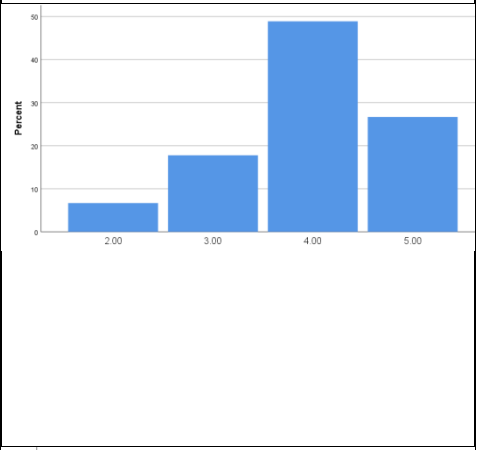

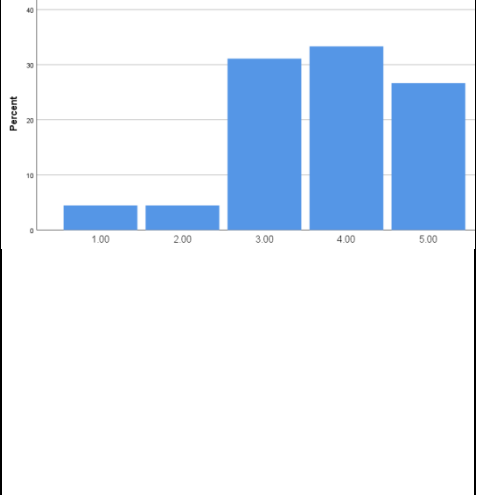

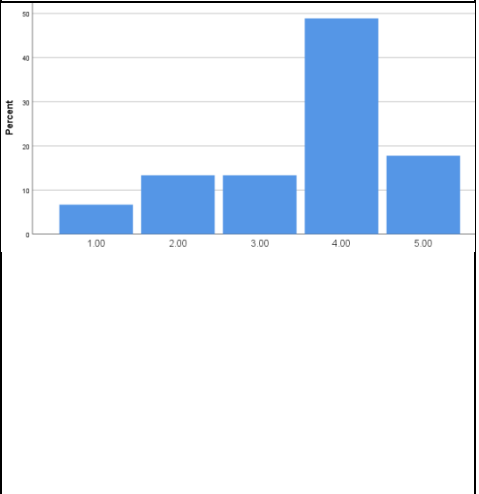

Summary Report for 5 BBAFA:

Below is the list of courses for 5 BBAFA on the basis of which the feedback was taken by the students:

10	Does the curriculum include avenues for using adequate ICT Tools for imparting education ?	Overall students were satisfied and said that the curriculum meets expectations in terms of ICT Tool' usage. Out of which 25% students rated excellent, 16% students rated good, 43% were satisfied, 11% rated average and remaining suggested for improvement.	
11	Does the curriculum generate inclination amongst students towards higher education?	Overall students were satisfied and said that the curriculum generates inclination amongst them towards higher education. Out of which 27% students rated excellent, 34% students rated good and 24% found the curriculum satisfactory. Remaining given average rating.	
12	General Comments and Suggestions:	No comment, overall good, Excellent, Good, Very Good, Nice, Interactive, Interesting	

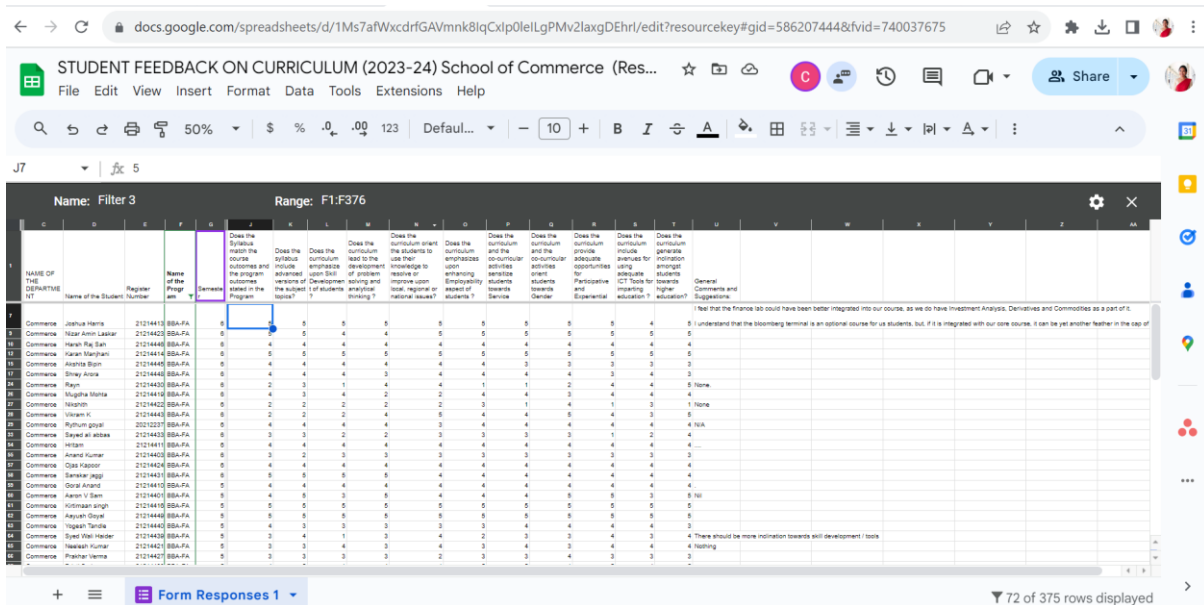

Overall Analysis

General Comments and Suggestions:

1. Currently the whole curriculum is good and topics are clear.
2. Everything is good
3. Classes are fine as of now
4. Fantastic subjects
5. Satisfied with my course
6. The curriculum keeps the students well engaged with practical as well as theoretical studies.
7. Everything is perfect.
8. Yes, i'm satisfied with the content received in the current semester and also it motivated or helped us in ways to self study and research.

Sample Feedbacks taken from students via Google Form consolidated in MS-Excel:

NAME OF THE DEPARTMENT	Name of the Student	Register Number	Semester	Does the syllabus match the course business and the program outcomes stated in the Program? Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BBA (Finance and Accountancy) students of Batch 2021-24. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BoS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting.

The meeting was held during BoS of BBA F & A programme. The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

Batch 2023-26**

**CHRIST (Deemed to be University), Delhi
NCR**

Survey Open Date- 02 January, 2024

Survey End Date- 11 March, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from December 2023 to March 2024.

The feedback analysis for students focuses on the curriculum and its learning-related aspects, including quality, competence, skills, and professionalism. It also takes into account issues pertaining to the delivery of the curriculum by teachers. The feedback is collected from students of Christ University. Similar to the process for teachers, the report of the response analysis is received by the university's vice chancellor or pro-vice chancellor. They further transmit it to the Internal Quality Assurance Cell (IQAC) for any necessary actions. Instructions based on the analysis are then provided to the heads of constituent colleges, who subsequently guide their respective departments to undertake appropriate steps and actions to address the concerns raised by the students.

The Students provided the feedback on curriculum which are explained later in the report. The questions were on the Likert-Scale (1 to 5) which are as follows:

1	Need to improve
2	Average
3	Satisfactory
4	Good
5	Excellent

Response Summary-

Classes	Total Students	% of Responses

Overall Analysis

General Comments and Suggestions:

1. The course is very helpful, the course plan provides diversity in the field of knowledge
2. I find the content covered this semester satisfying, as it has inspired and supported me in exploring self-study and research avenues.
3. Following the mid-semester exam, I've found the syllabus to be captivating, and my studies are progressing smoothly.
4. I'm pleased with the current curriculum; the topics are well-defined and comprehensible. Overall,
5. At present, the classes are satisfactory.
6. The curriculum effectively blends practical and theoretical studies, ensuring students remain actively engaged. Everything seems to be in perfect order.

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BCOM (Applied Finance & Analytics) students of Batch 2023-26. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BoS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting. The meeting was held during BoS of BCOMAFA programme. The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

Survey Open Date - October 26, 2023

Survey End Date - January 30, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from October to January 2024.

The Curriculum Feedback Analysis and Action Taken Report Policy is established to ensure the continuous enhancement and improvement of educational programs.

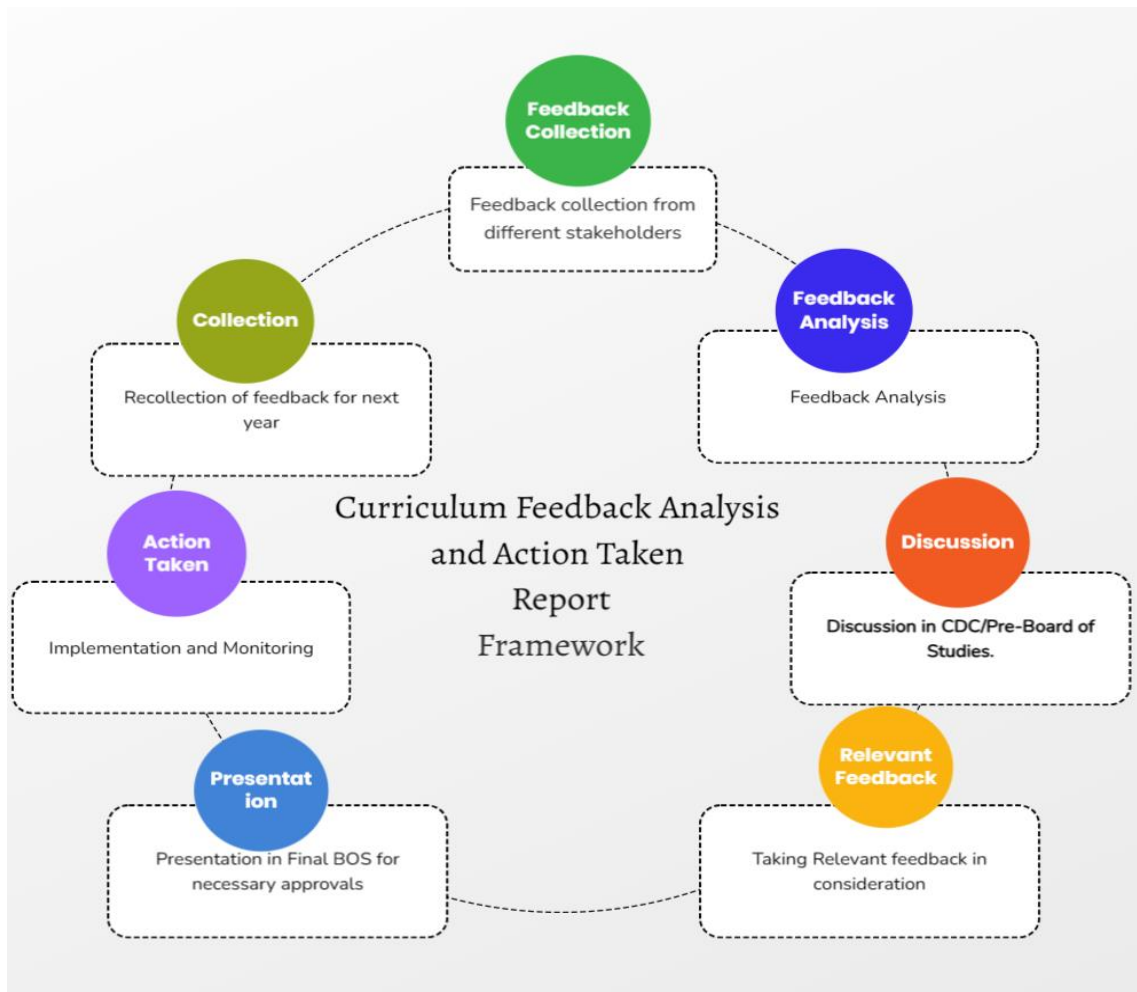

Policy

The policy aims to collect feedback from stakeholders, including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum, such as content, delivery methods, assessment strategies, and learning outcomes. Through systematic analysis of this feedback, in the form of introduction of new subjects trends, and areas for improvement are identified as a form of feedback analysis after this discussion in CDC/BOS

The finalized Action Taken Report outlines specific recommendations for curriculum enhancements, modifications, or revisions. This process involves multiple steps, including the collection of feedback, analysis, approval of the Action Taken Report, implementation of actions, and communication with stakeholders.

A flow chart illustrating this process ensures clarity and consistency in the execution of each step.

Feedback collection -

Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum. Feedback collection stands as a crucial endeavor in our pursuit of academic excellence, involving stakeholders such as students, faculty, administrators, and industry partners, alongside academic peers. This multifaceted feedback provides invaluable insights into various aspects of our curriculum, aiding in its continual refinement to meet the evolving needs of our educational community.

Process of feedback analysis

In the process of feedback analysis, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes play a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC team members and class teachers of respective classes ensure that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of discussing feedback entails convening meetings of the Curriculum Development Committee (CDC) and a pre-board meeting of the Board of Studies, these gatherings serve as critical forums for in-depth deliberations on the feedback received from various stakeholders regarding the curriculum, through collaborative dialogue and thorough examination, the CDC and Board of Studies analyze the feedback to discern overarching themes, identify areas of strength, and pinpoint opportunities for enhancement within the curriculum. These meetings not only facilitate alignment with academic standards and institutional goals but also foster a culture of continuous improvement in our educational endeavors.

Feedback collection - Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum

process of feedback analysis

In the process of discussion of Feedback a meeting will be called of CDC curriculum development committee and a pre-board meeting of Board of studies, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes play a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC ensures that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in

our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of taking relevant feedback in consideration

The process of taking relevant feedback into consideration involves several key steps aimed at ensuring a comprehensive and systematic approach. Firstly, feedback is collected from diverse stakeholders, including students, faculty, administrators, industry partners, and academic peers, through surveys, focus groups, interviews, and other means. Next, the feedback is meticulously reviewed and categorized to identify recurring themes, areas of consensus, and specific suggestions for improvement. Subsequently, a structured discussion is held within relevant committees, such as the Curriculum Development Committee (CDC) and the Board of Studies, where the feedback is thoroughly analyzed, and potential implications for the curriculum are explored. Throughout this process, emphasis is placed on prioritizing feedback that aligns with institutional goals, academic standards, and emerging trends in the field. Finally, decisions are made regarding the integration of feedback into the curriculum, considering factors such as feasibility, resource availability, and anticipated impact on student learning outcomes. This iterative process of feedback collection and analysis ensures that the curriculum remains responsive to the evolving needs of stakeholders and continues to uphold the highest standards of academic excellence.

Presentation of analysis in final BOS for necessary approvals

During the final Board of Studies (BOS) presentation, the comprehensive analysis of feedback collected from various stakeholders was meticulously presented to facilitate necessary approvals for improvements in our curriculum and educational practices. The analysis process involved thorough examination and categorization of feedback to identify recurring themes, areas of consensus, and specific suggestions for enhancement. Through structured discussions within the BOS, key areas for improvement were identified based on the insights gleaned from the feedback analysis. By presenting the analysis in a clear and concise manner, the BOS members were able to gain a holistic understanding of the feedback and its implications for curriculum development. Ultimately, the presentation served as a crucial step towards obtaining necessary approvals for

implementing changes aimed at enhancing the quality and relevance of our educational offerings.

Following the thorough analysis of feedback and identification of key areas for improvement in our curriculum and educational practices, proactive actions were taken to implement necessary changes. These actions included revising course materials, updating teaching methodologies, enhancing assessment practices, and incorporating emerging trends and industry standards. Additionally, a robust monitoring system was established to track the progress of implementation and evaluate the effectiveness of the changes made. Regular feedback loops were established to gather input from stakeholders and make adjustments as needed. By taking decisive actions and closely monitoring the implementation process, we aimed to ensure that the feedback analysis translated into tangible improvements that positively impacted the educational experience of our students.

Student's Curriculum Feedback Analysis and Action Taken Report

BCOM (Honors) Batch 2022-25

Survey Open Date- 02 January, 2024

Survey End Date- 11 March, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from December 2023 to March 2024.

The feedback analysis for students focuses on the curriculum and its learning-related aspects, including quality, competence, skills, and professionalism. It also takes into account issues pertaining to the delivery of the curriculum by teachers. The feedback is collected from students of Christ University. Similar to the process for teachers, the report of the response analysis is received by the university's vice chancellor or pro-vice chancellor. They further transmit it to the Internal Quality Assurance Cell (IQAC) for any necessary actions. Instructions based on the analysis are then provided to the heads of constituent colleges, who subsequently guide their respective departments to undertake appropriate steps and actions to address the concerns raised by the students.

The Students provided the feedback on curriculum which are explained later in the report. The questions were on the Likert-Scale (1 to 5) which are as follows:

1	Need to improve
2	Average
3	Satisfactory
4	Good
5	Excellent

Response Summary-

Classes	Total Students	% of Responses
3BCOMH	92	80
4BCOMH	93	80

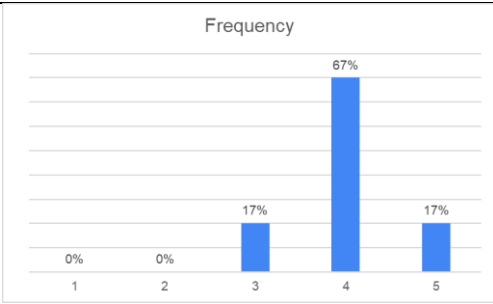

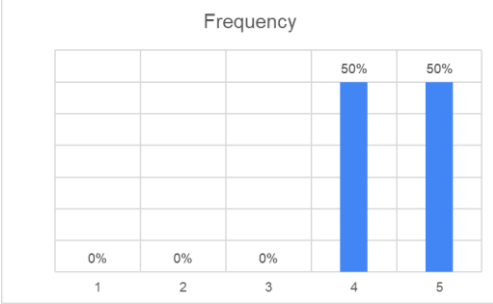

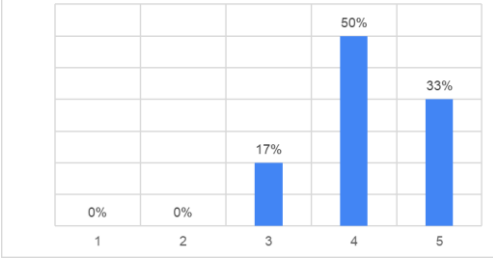

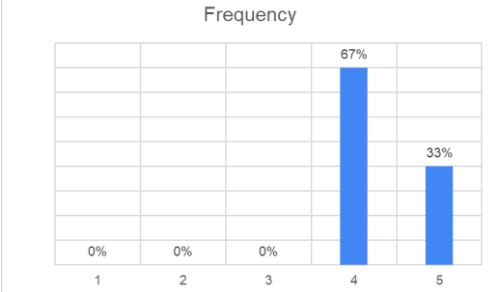

Summary Report for 3 BCOMH:

Below is the list of courses for 3 BCOMH on the basis of which the feedback was taken by the students:

S.NO	Course Code	Title of the Course
1	COH331	Corporate Accounting-II
2	COH332	Computer Applications in Business
3	COH333	Cost Accounting
4	COH334	Principles and Practice of Management
5	COH335	Financial Systems and Services
6	COH381	NGO Project
7	COH361A COH361B	Introduction to Public Policy Graphic Designing (Submission Course)
8	HOL311	Holistic Education – III

Below is the Curriculum Feedback summary report for 3BCOMH Course on following parameters:

S.NO	Questions	Response/ Feedback	Graphical Presentation												
1	Does the Syllabus match the course outcomes and the program outcomes stated in the Program Curriculum ?	Overall students were satisfied and said that the content of the curriculum satisfied the stated objectives and learning outcomes. Out of which 17% rated excellent, 67% students rated good, 17% satisfactory.	<p>Frequency</p>  <table border="1"> <thead> <tr> <th>Rating</th> <th>Frequency (%)</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>0%</td> </tr> <tr> <td>2</td> <td>0%</td> </tr> <tr> <td>3</td> <td>17%</td> </tr> <tr> <td>4</td> <td>67%</td> </tr> <tr> <td>5</td> <td>17%</td> </tr> </tbody> </table>	Rating	Frequency (%)	1	0%	2	0%	3	17%	4	67%	5	17%

Overall Analysis

General Comments and Suggestions:

1. After the mid sem exam the syllabus is interesting and studies are going well.
2. Currently the whole curriculum is good and topics are clear.
3. Everything is good
4. Classes are fine as of now
5. Fantastic subjects
6. Satisfied with my course
7. The curriculum keeps the students well engaged with practical as well as theoretical studies.
8. Everything is perfect.
9. Yes, i'm satisfied with the content received in the current semester and also it motivated or helped us in ways to self study and research.

Action Taken Report

The curriculum feedback has been taken from the students for the Academic Year 2023-24 from BCOM (Honours) students of Batch 2022-25. The students responded to the feedback for both the semesters. The feedback on curriculum was taken through google form prepared with questions on their curriculum and syllabus and answers were taken on 5-likert scale on which the students responded. Based on the responses of the students, as per the process of taking curriculum feedback and then discussing the required changes in BoS discussed in the meeting in the presence of Programme Coordinators, Academic Coordinator and Head of the Department and then it was discussed to propose the changes with the Curriculum Development Committee (CDC) members including members of School of Business and Management who are the part of CDC as well in the CDC meeting. The meeting was held during BoS of BCOMH programme. The following points were discussed in the meeting:

- There are major areas where students are satisfied with the curriculum structure.
- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

Accountancy**

**Students' Curriculum Feedback Analysis
and Action Taken Report**

MS.c (Finance & Analytics)

Batch 2023-25

**CHRIST (Deemed to be University), Delhi
NCR**

Survey Open Date- 02 January, 2024

Survey End Date- 11 March, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from December 2023 to March 2024. The feedback analysis for students focuses on the curriculum and its learning-related aspects, including quality, competence, skills, and professionalism. It also takes into account issues pertaining to the delivery of the curriculum by teachers. The feedback is collected from students of Christ University. Similar to the process for teachers, the report of the response analysis is received by the university's vice chancellor or pro-vice chancellor. They further transmit it to the Internal Quality Assurance Cell (IQAC) for any necessary actions. Instructions based on the analysis are then provided to the heads of constituent colleges, who subsequently guide their respective departments to undertake appropriate steps and actions to address the concerns raised by the students. The Students provided the feedback on curriculum which are explained later in the report. The questions were on the Likert-Scale (1 to 5) which are as follows:

1	Need to improve
2	Average
3	Satisfactory
4	Good
5	Excellent

12	General Comments and Suggestions:	Great course													

Overall Analysis

General Comments and Suggestions:

1. Great course.
2. Need to introduce topics like Mysql, Finance for Economics and Quantitative Methods for Finance as a compulsory subjects. Most of the CIA-1&2 in Data Analytics should be in project format, so that it can be shared upon Githubs for better employment opportunities.

Sample Feedbacks taken from students via Google Form consolidated in MS-Excel:

U195 | Need to introduce topics like Mysql, Finance for Economics and Quantitative Methods for Finance as a compulsory subjects. Most of the CIA-1&2 in Data Analytics should be in project format, so that it can be shared upon Githubs for better employment opportunities.

- Few minor changes were suggested in CIAs during BoS to make the assignments more industry oriented and experiential.
- It was also decided to inculcate the habit of using ICT Tools by students also on regular basis and not only for assignments, projects.

Hence, as per the few changes suggested by the students, the School of Commerce, Finance and Accountancy have decided in the BoS to include such points, though there are very few points where improvements can be made as the structure has been prepared as per the requirements of the current market only.

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

Survey Open Date - October 26, 2023

Survey End Date - January 30, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from October to January 2024.

The Curriculum Feedback Analysis and Action Taken Report Policy is established to ensure the continuous enhancement and improvement of educational programs.

Policy

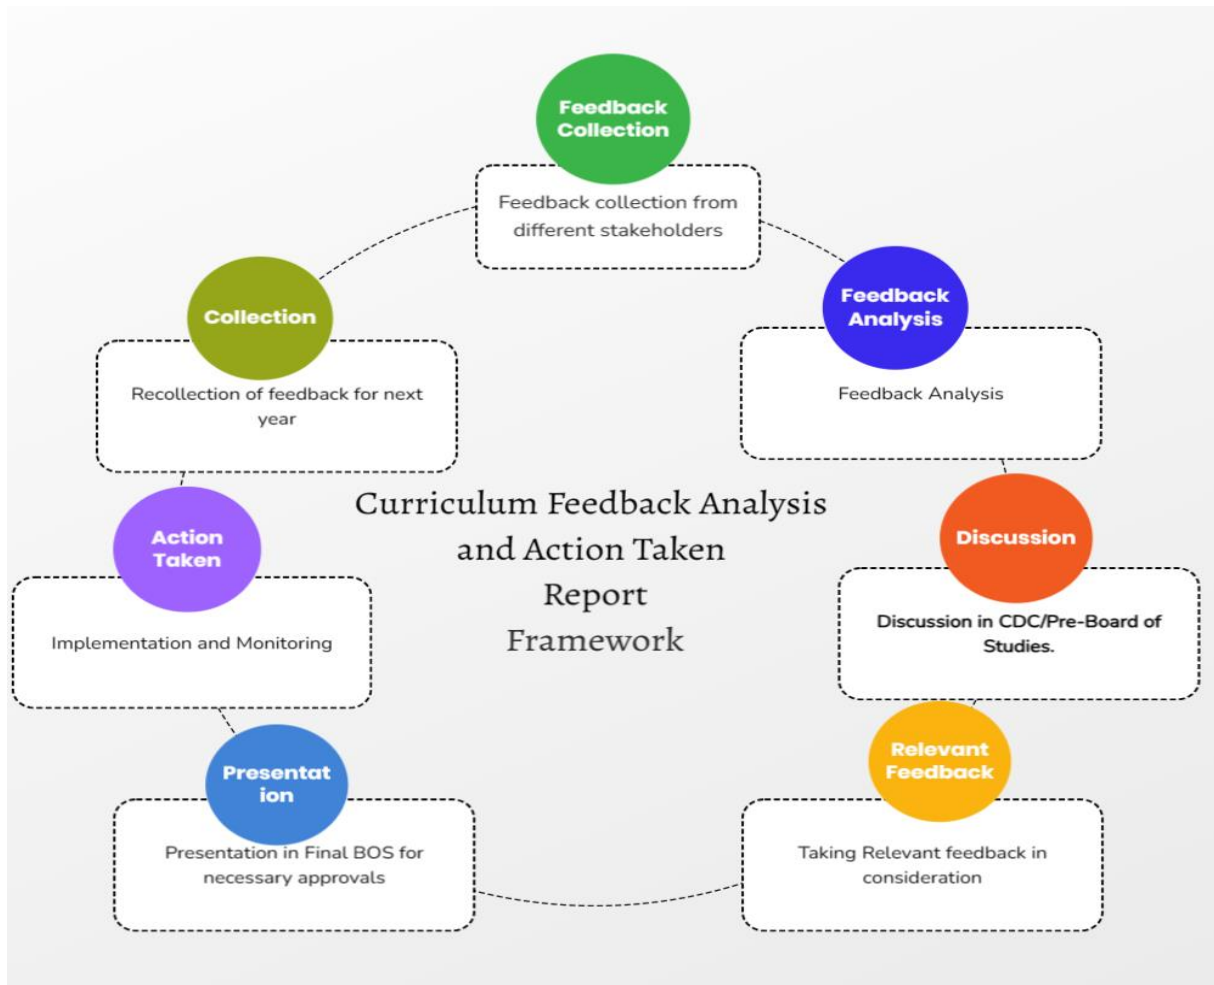

The policy aims to collect feedback from stakeholders, including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum, such as content, delivery methods, assessment strategies, and learning outcomes. Through systematic analysis of this feedback, in the form of introduction of new subjects trends, and areas for improvement are identified as a form of feedback analysis after this discussion in CDC/BOS

The finalized Action Taken Report outlines specific recommendations for curriculum enhancements, modifications, or revisions. This process involves multiple steps, including the collection of feedback, analysis, approval of the Action Taken Report, implementation of actions, and communication with stakeholders.

Process of feedback analysis

In the process of feedback analysis, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes play a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC team members and class teachers of respective classes ensure that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of discussing feedback entails convening meetings of the Curriculum Development Committee (CDC) and a pre-board meeting of the Board of Studies, these gatherings serve as critical forums for in-depth deliberations on the feedback received from various stakeholders regarding the curriculum, through collaborative dialogue and thorough examination, the CDC and Board of Studies analyze the feedback to discern overarching themes, identify areas of strength, and pinpoint opportunities for enhancement within the curriculum. These meetings not only facilitate alignment with academic standards and institutional goals but also foster a culture of continuous improvement in our educational endeavors.

Feedback collection - Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum process of feedback analysis.

In the process of discussion of Feedback a meeting will be called of CDC curriculum development committee and a pre-board meeting of the Board of studies, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes plays a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse

stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC ensures that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of taking relevant feedback in consideration

The process of taking relevant feedback into consideration involves several key steps aimed at ensuring a comprehensive and systematic approach. Firstly, feedback is collected from diverse stakeholders, including students, faculty, administrators, industry partners, and academic peers, through surveys, focus groups, interviews, and other means. Next, the feedback is meticulously reviewed and categorized to identify recurring themes, areas of consensus, and specific suggestions for improvement. Subsequently, a structured discussion is held within relevant committees, such as the Curriculum Development Committee (CDC) and the Board of Studies, where the feedback is thoroughly analyzed, and potential implications for the curriculum are explored. Throughout this process, emphasis is placed on prioritizing feedback that aligns with institutional goals, academic standards, and emerging trends in the field. Finally, decisions are made regarding the integration of feedback into the curriculum, considering factors such as feasibility, resource availability, and anticipated impact on student learning outcomes. This iterative process of feedback collection and analysis ensures that the curriculum remains responsive to the evolving needs of stakeholders and continues to uphold the highest standards of academic excellence.

Presentation of analysis in final BOS for necessary approvals

During the final Board of Studies (BOS) presentation, the comprehensive analysis of feedback collected from various stakeholders was meticulously presented to facilitate necessary approvals for improvements in our curriculum and educational practices. The analysis process involved thorough examination and categorization of feedback to identify recurring themes, areas of consensus, and specific suggestions for enhancement. Through structured discussions within the BOS, key areas for improvement were identified based on the insights gleaned from the feedback analysis. By presenting the analysis in a clear and concise manner, the BOS members were able to gain a holistic understanding of the feedback and its implications for curriculum development. Ultimately, the presentation served as a crucial step towards obtaining necessary approvals for implementing changes aimed at enhancing the quality and relevance of our educational offerings.

Following the thorough analysis of feedback and identification of key areas for improvement in our curriculum and educational practices, proactive actions were taken to implement necessary changes. These actions included revising course materials, updating teaching methodologies, enhancing assessment practices, and incorporating emerging trends and industry standards. Additionally, a robust monitoring system was established to track the progress of implementation and evaluate the effectiveness of the changes made. Regular feedback loops were established to gather input from stakeholders and make adjustments as needed. By taking decisive actions and closely monitoring the implementation process, we aimed to ensure that the feedback analysis translated into tangible improvements that positively impacted the educational experience of our students.

Action Taken

It's important to consider Alumni's feedback. Alumni are better at knowing which students will quickly grasp the material and which would require additional time. In order to improve education, Alumnis recommendations on the curriculum for all 4 programmes in the School of Commerce, Finance, and Accountancy for the odd and even semester of 2023–2043 were gathered.

The Alumni of the respective programmes responded to the input. Using a Google form that asked them about the current curriculum and syllabus, Alumnis provided feedback on the curriculum. A 5-likert scale was used to compile the responses. The School of Commerce, Finance & Accountancy was scheduled for a faculty meeting with the Programme Coordinators and the Head of the Department in response to the suggestions provided by the Alumni's. It was then decided to discuss the modifications with the members of the Curriculum Development Committee (CDC). The meeting was held on February 5, 2024, to talk about the Alumnis responses, and the main points were covered:

- What were the responses of Alumnis?
- How far are the Alumnis satisfied with the curriculum in the odd and even semester?
- For those who are not satisfied or not given the satisfactory feedback, points discussed on what has to be done in regard to that and how much changes are required in the curriculum in regard to the same?

The curriculum needs to be revised in the areas where Alumnis were dissatisfied, as shown by the histograms given in the report above for various points, it was also decided during the meeting. The faculties have come to an agreement, and the reforms will start to be applied in the following semester.

In the process of discussion of Feedback a meeting will be called of CDC curriculum development committee and a pre- board meeting of Board of studies , the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes plays a pivotal role in systematically collating, synthesizing, and interpreting feedback from

diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC ensures that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of taking relevant feedback in consideration

The process of taking relevant feedback into consideration involves several key steps aimed at ensuring a comprehensive and systematic approach. Firstly, feedback is collected from diverse stakeholders, including students, faculty, administrators, industry partners, and academic peers, through surveys, focus groups, interviews, and other means. Next, the feedback is meticulously reviewed and categorized to identify recurring themes, areas of consensus, and specific suggestions for improvement. Subsequently, a structured discussion is held within relevant committees, such as the Curriculum Development Committee (CDC) and the Board of Studies, where the feedback is thoroughly analyzed, and potential implications for the curriculum are explored. Throughout this process, emphasis is placed on prioritizing feedback that aligns with institutional goals, academic standards, and emerging trends in the field. Finally, decisions are made regarding the integration of feedback into the curriculum, considering factors such as feasibility, resource availability, and anticipated impact on student learning outcomes. This iterative process of feedback collection and analysis ensures that the curriculum remains responsive to the evolving needs of stakeholders and continues to uphold the highest standards of academic excellence.

Presentation of analysis in final BOS for necessary approvals

During the final Board of Studies (BOS) presentation, the comprehensive analysis of feedback collected from various stakeholders was meticulously presented to facilitate necessary approvals for improvements in our curriculum and educational practices. The analysis process involved thorough examination and categorization of feedback to identify recurring themes, areas of consensus, and specific suggestions for enhancement. Through structured discussions within the BOS, key areas for improvement were identified based on the insights gleaned from the feedback analysis. By presenting the analysis in a clear and concise manner, the BOS members were able to gain a holistic understanding of the feedback and its implications for curriculum development. Ultimately, the presentation served as a crucial step towards obtaining necessary approvals for implementing changes aimed at enhancing the quality and relevance of our educational offerings.

Following the thorough analysis of feedback and identification of key areas for improvement in our curriculum and educational practices, proactive actions were taken to implement necessary changes. These actions included revising course materials, updating teaching methodologies, enhancing assessment practices, and incorporating emerging trends and industry standards. Additionally, a robust monitoring system was established to track the progress of implementation and evaluate the effectiveness of the changes made. Regular feedback loops were established to gather input from stakeholders and make adjustments as needed. By taking decisive actions and closely monitoring the implementation process, we aimed to ensure that the feedback analysis translated into tangible improvements that positively impacted the educational experience of our students.

Below is the Question wise Overall Feedback from the Academic peer based on histogram:

1.

Experience in Industry/R&D (Number of Years)*
8 responses

Academic peer review is a cornerstone of scholarly research, ensuring the quality and validity of scientific work. Peers, typically experts in the same field, rigorously evaluate research papers before publication, offering constructive feedback and critique. This process helps maintain standards of excellence, verifies research integrity, and facilitates knowledge dissemination.

In industry, peer review takes on a slightly different but equally crucial role. Here, peers are professionals within the same organization or industry, possessing practical experience and subject matter expertise. Their evaluation of projects, proposals, or products ensures alignment with organizational goals, regulatory compliance, and customer satisfaction.

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed to be University
Delhi NCR

Academic peers were all very experienced in the academic industry. Out of which 25% of academic peers are having research experience of more than 2 years, 65% is working in academic institutions.

2.

Does the curriculum satisfy the stated objective and learning outcome?

8 responses

The curriculum seems to satisfy the stated objective and learning outcome by providing a comprehensive overview of academic peer review, including its principles, importance, and procedures. Additionally, it highlights the adaptation of peer review practices in industry, emphasizing the role of peers in ensuring alignment with organizational goals and regulatory requirements. Academic peers 37.5% were said that the syllabus includes advanced versions of the subject topics. Out of which 50% of academic peers rated excellent, 12.5% rated good.

3.

Is the curriculum effective in developing independent thinking?

8 responses

Academic peers were asked to assess the effectiveness of the curriculum in fostering independent thinking. Among them, 37.5% rated it as excellent, while 50% indicated that it could be improved. This feedback suggests that while a significant portion of academic peers found the curriculum to be highly effective in promoting independent thinking, there is still room for enhancement according to half of the respondents.

4.

Does the curriculum enable the student to apply their knowledge in real life?

8 responses

The curriculum is designed to enable students to apply their knowledge in real-life situations. By emphasizing practical applications and providing opportunities for hands-on learning, students gain the skills and confidence needed to translate theoretical concepts into real-world

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

scenarios. This approach encourages critical thinking, problem-solving, and the ability to adapt knowledge to diverse contexts. Overall, the curriculum aims to prepare students for success beyond the classroom by equipping them with the tools to effectively apply their learning in various real-life situations. Good: 37.5 % Represents a solid understanding of the subject matter with few minor gaps or areas for improvement.

12.5 % rated the syllabus as Very Good which Reflects a strong understanding of the subject matter with minimal deficiencies and the ability to apply knowledge effectively in various contexts. 37.5 rated the syllabus as excellent which demonstrates an exceptional level of understanding and mastery of the subject matter, with the ability to critically analyze, synthesize, and apply knowledge creatively.

5.

Does the curriculum enhance the knowledge in the subject area?

8 responses

Academic peers were surveyed to evaluate whether the curriculum enhances knowledge in the subject area. Among the respondents, 25% rated it as fair, indicating a basic level of improvement in knowledge. Half of the peers, accounting for 50%, rated the curriculum as very good, suggesting a strong enhancement in understanding and proficiency. Additionally, 25% of academic peers rated the curriculum as excellent, indicating an exceptional level of knowledge enrichment within the subject area.

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

6.

Does the curriculum demand the teachers for research inclusive teaching?

8 responses

Academic peers were surveyed to evaluate the effectiveness of the curriculum regarding its demand for teachers to incorporate research-inclusive teaching methods. The responses indicate a diverse range of perspectives: 25% of respondents indicated that the curriculum "Needs Improvement," suggesting a significant deficiency in prompting teachers to adopt research-inclusive teaching practices. 37.5% of peers rated the curriculum as "Fair," indicating a basic level of demand for research-inclusive teaching methods but with notable areas for enhancement. Another 37.5% of respondents rated the curriculum as "Very Good," suggesting that it effectively encourages teachers to incorporate research-inclusive teaching practices, though there may still be room for improvement.

7.

Does the curriculum meet the benchmark of the academic standards for the mentioned program?

8 responses

Academic peers were surveyed to assess the effectiveness of the curriculum in meeting the benchmark of academic standards for the mentioned program. The responses indicate: 62.5% rated the curriculum as "Good," suggesting that it generally meets the benchmark of academic standards for the program, with room for some improvement. 12.5% of peers rated it as "Very Good," indicating that the curriculum surpasses expectations and aligns well with the academic standards for the program. 25% of respondents rated the curriculum as "Excellent," signifying that it not only meets but exceeds the benchmark of academic standards, demonstrating exceptional alignment and effectiveness.

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

Academic peers have provided several suggestions for curriculum improvement:

Introduce dedicated units in each subject focusing on emerging trends and challenges within the domain. These sessions should be conducted in a workshop format rather than traditional lecture-style delivery. Acknowledge the curriculum's exhaustiveness, indicating its comprehensive coverage and regular updates. Emphasize the importance of consistently updating the curriculum to align with recent advancements in research and development.

Stress the necessity for ground-level efforts to implement suggested changes effectively.

An assessment of the effectiveness of the curriculum was conducted through a survey among academic peers. This evaluation focused on analyzing the outcomes derived from both the Action Taken Report and the Impact Analysis. The Action Taken Report documented the steps taken to address any identified shortcomings or areas for improvement within the curriculum. It provided a detailed account of the initiatives implemented, modifications made, and strategies employed to enhance the curriculum's efficacy.

Impact Analysis

It delved into the tangible effects resulting from these actions. It scrutinized how the implemented changes influenced various aspects such as student learning outcomes, engagement levels, and overall educational experience. This analysis sought to quantify the extent to which the curriculum adjustments positively impacted the academic environment and the achievement of educational goals. By surveying academic peers, insights were gathered regarding their perceptions of the effectiveness of the curriculum following the implementation of these changes. Peers were asked to evaluate the extent to which the curriculum enhancements aligned with the intended objectives and contributed to an improved learning experience.

Delhi NCR

Survey Open Date - October 26, 2023

Survey End Date - January 30, 2024

Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals. To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from October to January 2024.

The Curriculum Feedback Analysis and Action Taken Report Policy is established to ensure the continuous enhancement and improvement of educational programs.

Policy

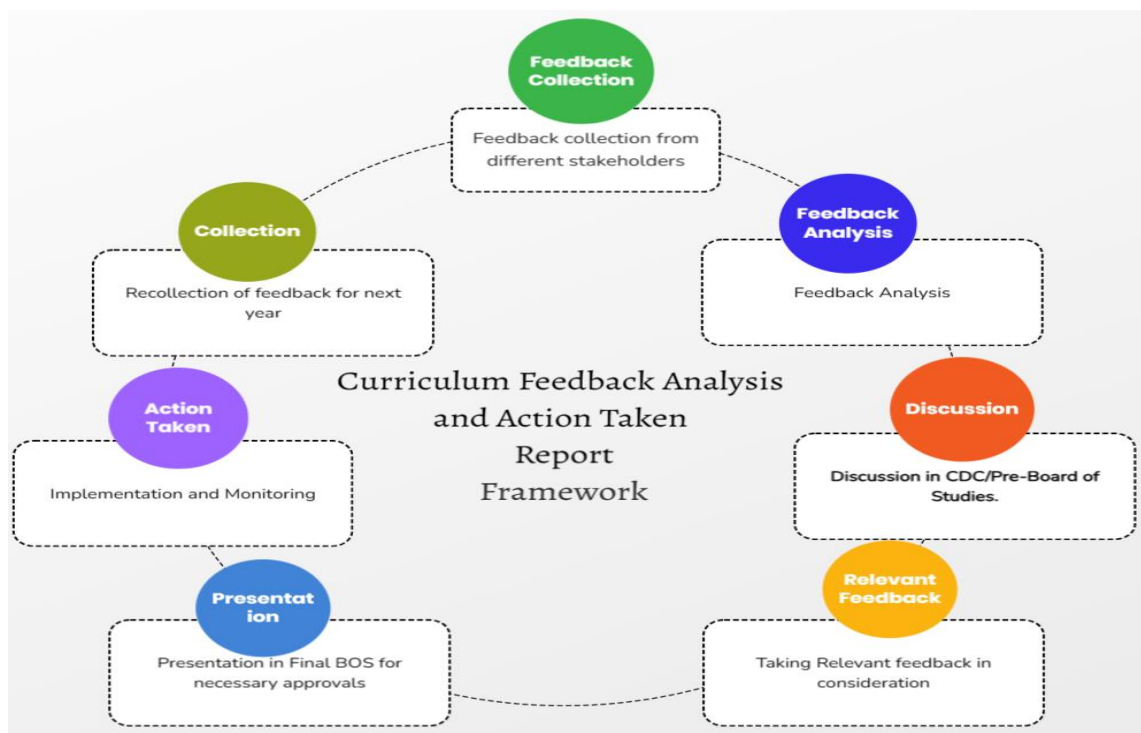

The policy aims to collect feedback from stakeholders, including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum, such as content, delivery methods, assessment strategies, and learning outcomes. Through systematic analysis of this feedback, in the form of introduction of new subjects trends, and areas for improvement are identified as a form of feedback analysis after this discussion in CDC/BOS.

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

The finalized Action Taken Report outlines specific recommendations for curriculum enhancements, modifications, or revisions. This process involves multiple steps, including the collection of feedback, analysis, approval of the Action Taken Report, implementation of actions, and communication with stakeholders.

A flow chart illustrating this process ensures clarity and consistency in the execution of each step.

Feedback collection

Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum.

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

Feedback collection stands as a crucial endeavor in our pursuit of academic excellence, involving stakeholders such as students, faculty, administrators, and industry partners, alongside academic peers. This multifaceted feedback provides invaluable insights into various aspects of our curriculum, aiding in its continual refinement to meet the evolving needs of our educational community.

Process of feedback analysis

In the process of feedback analysis, the Internal Quality Assurance Cell (IQAC) team members and class teachers of respective classes play a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC team members and class teachers of respective classes ensure that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of discussing feedback entails convening meetings of the Curriculum Development Committee (CDC) and a pre-board meeting of the Board of Studies, these gatherings serve as critical forums for in-depth deliberations on the feedback received from various stakeholders regarding the curriculum, through collaborative dialogue and thorough examination, the CDC and Board of Studies analyze the feedback to discern overarching themes, identify areas of strength, and pinpoint opportunities for enhancement within the curriculum. These meetings not only facilitate alignment with academic standards and institutional goals but also foster a culture of continuous improvement in our educational endeavors.

Feedback collection - Feedback collection from different stakeholders including students, faculty, administrators, and industry partners, Academic peers regarding various aspects of the curriculum process of feedback analysis

In the process of discussion of Feedback a meeting will be called of CDC curriculum development committee and a pre- board meeting of Board of studies , the Internal Quality Assurance Cell (IQAC)team members and class teachers of respective classes plays a pivotal role in systematically collating, synthesizing, and interpreting feedback from diverse stakeholders, including students, faculty, administrators, and industry partners. By employing rigorous methodologies and leveraging technological tools, the IQAC ensures that insights gleaned from feedback are comprehensively analyzed to identify key areas for improvement in our curriculum and educational practices. Through this meticulous process, we endeavor to uphold the highest standards of quality assurance and continuously enhance the educational experience for our stakeholders.

The process of taking relevant feedback in consideration

The process of taking relevant feedback into consideration involves several key steps aimed at ensuring a comprehensive and systematic approach. Firstly, feedback is collected from diverse stakeholders, including students, faculty, administrators, industry partners, and academic peers, through surveys, focus groups, interviews, and other means. Next, the feedback is meticulously reviewed and categorized to identify recurring themes, areas of consensus, and specific suggestions for improvement. Subsequently, a structured discussion is held within relevant committees, such as the Curriculum Development Committee (CDC) and the Board of Studies, where the feedback is thoroughly analyzed, and potential implications for the curriculum are explored.

Throughout this process, emphasis is placed on prioritizing feedback that aligns with

Head
School of Commerce, Finance & Accountancy
CHRIST Deemed be University
Delhi NCR

institutional goals, academic standards, and emerging trends in the field. Finally, decisions are made regarding the integration of feedback into the curriculum, considering factors such as feasibility, resource availability, and anticipated impact on student learning outcomes. This iterative process of feedback collection and analysis ensures that the curriculum remains responsive to the evolving needs of stakeholders and continues to uphold the highest standards of academic excellence.

Presentation of analysis in final BOS for necessary approvals

During the final Board of Studies (BOS) presentation, the comprehensive analysis of feedback collected from various stakeholders was meticulously presented to facilitate necessary approvals for improvements in our curriculum and educational practices. The analysis process involved thorough examination and categorization of feedback to identify recurring themes, areas of consensus, and specific suggestions for enhancement. Through structured discussions within the BOS, key areas for improvement were identified based on the insights gleaned from the feedback analysis. By presenting the analysis in a clear and concise manner, the BOS members were able to gain a holistic understanding of the feedback and its implications for curriculum development. Ultimately, the presentation served as a crucial step towards obtaining necessary approvals for implementing changes aimed at enhancing the quality and relevance of our educational offerings.

Following the thorough analysis of feedback and identification of key areas for improvement in our curriculum and educational practices, proactive actions were taken to implement necessary changes. These actions included revising course materials, updating teaching methodologies, enhancing assessment practices, and incorporating emerging trends and industry standards. Additionally, a robust monitoring system was established to track the progress of implementation and evaluate the effectiveness of the changes made. Regular

feedback loops were established to gather input from stakeholders and make adjustments as needed. By taking decisive actions and closely monitoring the implementation process, we aimed to ensure that the feedback analysis translated into tangible improvements that positively impacted the educational experience of our students.

Response Summary

There are 15 responses received from the Faculties of Christ University's School of Commerce, Finance & Accountancy, Christ University's Feedback Analysis Committee is responsible for designing and collecting feedback from various stakeholders to assess and evaluate the quality of its curriculum and related matters. The feedback forms are obtained from students, teachers, employers, alumni, and professionals.

To enhance the feedback process from all stakeholders, Christ University tailors the feedback targeting specific content for different groups. The School of Commerce Finance and Accountancy, for example, compiles a Curriculum Feedback Analysis and Action Taken Report on an annual basis, gathering feedback from October to January 2023.

Faculties of Christ University's School of Commerce, Finance & Accountancy aimed for responses on adequateness of course curriculum, sufficiency of syllabus content in context of current professional standards and curriculum design in context of development of self-directed learning and problem solving approach.

The university's vice chancellor or pro-vice chancellor receives the report of the response analysis, which is then passed on to IQAC for any necessary action. All of the constituent colleges' heads are then given instructions based on the analysis after that department will take the appropriate steps and actions in order to address the issues brought up by the department faculties of Christ University's School of Commerce, Finance & Accountancy.

5.

Does the Syllabus match the course outcomes and the program outcomes stated in the Program Curriculum ?

15 responses

The analysis of feedback indicates a mixed perspective on the alignment of the syllabus with both course outcomes and program outcomes as stated in the Program Curriculum. The feedback suggests that while there is a significant alignment with course outcomes, there may be some gaps in alignment with program outcomes. A majority (66.7%) of respondents acknowledge a strong alignment between the syllabus and course outcomes. This suggests that the content and objectives of individual courses within the curriculum effectively contribute to achieving the intended learning outcomes. Faculty members likely perceive that the syllabus adequately covers the knowledge and skills specified for each course. A notable portion (33.3%) of respondents express concerns about the alignment of the syllabus with program outcomes. This indicates that there may be discrepancies between the broader educational objectives outlined in the Program Curriculum and the specific content and activities included in the syllabus. These discrepancies could potentially hinder the fulfillment of the overarching goals of the program.

6.

Does the syllabus include advanced versions of the subject topics?

15 responses

The analysis of feedback reveals varying perspectives on whether the syllabus includes advanced versions of subject topics. While a majority (80%) of respondents acknowledge the presence of advanced subject topics, a minority (20%) express concerns about their inclusion. The majority of respondents (80%) affirm that the syllabus encompasses advanced versions of subject topics. This suggests that the curriculum incorporates content and concepts that extend beyond fundamental or introductory levels, providing students with opportunities for deeper exploration and mastery of the subject matter. Faculty members likely recognize the importance of exposing students to advanced topics to adequately prepare them for the complexities of their field. A minority of respondents (20%) express reservations regarding the inclusion of advanced subject topics in the syllabus. This minority perspective may stem from concerns about the comprehensibility of advanced content for all students, potential time constraints, or the perceived relevance of advanced topics to the program objectives.

7.

Does the curriculum emphasize upon Skill Development of students ?

15 responses

The analysis of feedback indicates a strong consensus among respondents such as faculties regarding the emphasis placed on skill development in the curriculum. The majority of respondents (93.4%) either strongly agree or agree that the curriculum prioritizes skill development, while a small percentage (6.7%) express a satisfactory view. Nearly half of the respondents (46.7%) strongly agree that the curriculum emphasizes skill development. This indicates a robust perception among faculty members that the curriculum is deliberately designed to cultivate and enhance students' practical competencies, beyond theoretical knowledge. An additional 46.7% of respondents agree that the curriculum emphasizes skill development. This further reinforces the prevalent belief among faculty members that the curriculum effectively integrates skill-building components, aligning with the evolving demands of the professional landscape. A small minority (6.7%) of respondents express a satisfactory view regarding the emphasis on skill development in the curriculum. While this group acknowledges the presence of skill-focused elements, they may perceive room for improvement or refinement in certain areas to enhance the efficacy of skill development initiatives.

8.

Does the curriculum lead to the development of problem solving and analytical thinking ?

15 responses

The analysis of faculty feedback regarding the extent to which the curriculum fosters problem-solving and analytical thinking skills indicates a positive perception, with a significant proportion rating it favorably. The majority of respondents (86.7%) rated the curriculum as either excellent or very good in this regard, with a smaller percentage indicating room for improvement. A notable proportion of respondents (26.7%) rated the curriculum as excellent in terms of its contribution to the development of problem-solving and analytical thinking skills. The impact of this is that a considerable segment of faculty members perceives the curriculum as highly effective in nurturing these critical competencies among students. The majority of respondents (60%) rated the curriculum as very good, indicating a strong consensus among faculty members regarding its positive impact on problem-solving and analytical thinking skills development. This suggests that the curriculum incorporates strategies, activities, and content that actively promote the cultivation of these essential skills.

9.

Does the curriculum orient the students to use their knowledge to resolve or improve upon local, regional or national issues?

15 responses

In evaluating whether the curriculum effectively oriented students to utilize their knowledge for resolving or improving local, regional, or national issues, the feedback analysis yielded a positive overall perception. The majority of respondents (73.4%) rated the curriculum favorably, with a significant portion expressing satisfaction or high praise for its orientation towards societal problem-solving. Almost half of the respondents (46.7%) rated the curriculum as "Very Good" in terms of its emphasis on utilizing knowledge to address societal issues. This indicates a strong acknowledgment among faculty members that the curriculum adequately prepares students to engage with and contribute meaningfully to societal challenges at various levels. A notable portion of respondents (26.7%) rated the curriculum as "Excellent" in this aspect.

Action Taken Report on Feedback from Faculty

In response to the invaluable feedback gathered from our esteemed faculty members, we have initiated a series of actions aimed at refining and improving our curriculum. Recognizing the expertise and experience of our faculty in understanding the nuances of student learning, we have prioritized their insights in shaping our educational offerings.

After thorough analysis and deliberation, it was evident that certain modifications to the syllabus were necessary to enhance the overall learning experience. Consequently, a collaborative effort was undertaken to convene the Board of Studies, comprising seasoned academics and subject matter experts, to spearhead the curriculum revision process.

During the Board of Studies meetings, faculty members from various disciplines engaged in rigorous discussions to assess the efficacy of the current syllabus and identify areas for improvement. Drawing upon their collective expertise and insights, the Board meticulously reviewed each component of the curriculum, scrutinizing learning objectives, course content, and assessment methodologies.

The feedback provided by faculty members served as a guiding principle throughout the revision process, ensuring that the proposed changes were aligned with the evolving needs of our students and the demands of the academic landscape. Emphasis was placed on fostering critical thinking, problem-solving skills, and real-world application of knowledge in the revised syllabus.

Following extensive deliberations, the Board of Studies finalized the updated syllabus, incorporating innovative pedagogical approaches and relevant industry insights to enrich the learning experience. The revised curriculum reflects a holistic approach to education,

The Impact of Feedback from Faculty

The impact of faculty feedback and curriculum revision on the educational landscape of an institution is profound and far-reaching. By actively soliciting input from faculty members, institutions can tap into a wealth of expertise and insights that serve to enhance the quality and relevance of the curriculum. Through this collaborative process, faculty feedback helps identify areas where the curriculum may be strengthened or refined to better align with educational objectives and meet the evolving needs of students. As a result of incorporating faculty suggestions, curriculum revisions often lead to the adoption of innovative teaching methodologies, practical applications, and real-world examples, ultimately enhancing student engagement and learning outcomes. Moreover, faculty members, being experts in their fields, are adept at identifying emerging trends and skill requirements in the industry, ensuring that curriculum revisions align with industry needs and enhance students' employability. This collaborative approach fosters a culture of shared ownership and continuous improvement within the institution, as faculty members actively contribute to shaping the educational direction and ensuring that educational offerings remain responsive to changing educational landscapes. Overall, the impact of faculty feedback and curriculum revision extends beyond the classroom, shaping the educational experience of students and contributing to the institution's reputation for excellence in teaching and learning.
