

## Standard Operation Procedure for Feedback on Curriculum

Continuous qualitative feedback is taken across the year from various stakeholders in order to understand the applicability, feasibility and industry-appropriateness of the coursework. The department has defined five stakeholders, namely – Teachers, Students, Experts, Parents and Alumni. Following is the year-long feedback loop that is followed at the departmental level.

This feedback is incorporated and if changes are incorporated, it is again sent to the Curriculum Development Cell for further approval and feedback. This is a cyclic process and is in keeping with the policy of CHRIST (Deemed to be University) policy.
