**Workshop on Hints For Research Output To Reputed Publications: A
Editors Perspective**

26th November 2022.

-Event Report-

The "Hints For Research Output To Reputed Publications: An Editor's Perspective" workshop was successfully conducted on 26 November 2022. The event began with a warm welcome from Dr. Ramji and he introduced the resource person. The resource person Dr. K. Mathiyazhakan introduced the importance of submitting research papers to the right journals and the challenges researchers face in obtaining positive responses for publication. The workshop focused on providing participants with key insights and strategies for submitting their papers effectively and increasing their chances of publication. Overall, the workshop provided valuable insights and practical strategies for researchers to increase their chances of publishing in reputed publications. Participants gained a deeper understanding of the key factors that editors consider during the review process.

The workshop concluded with a question and answer session, allowing participants to seek clarification and further guidance. The attendees expressed their appreciation for the workshop, stating that it provided them with valuable insights and actionable tips to enhance their research output. The session concluded with a vote of thanks by Dr. Ramji.
