THE MACHINE LEARNING COMPANY

Date - 21/03/2021

Greetings of the Day,

Subject: Industry-Academia Collaboration with CHRIST (Deemed to be University)

We here at **THE MACHINE LEARNING COMPANY** endorse the proposal for a relationship with **CHRIST (Deemed to be University)** to help both organizations improve skill sets, creativity, and research opportunities, as we have already discussed. We want to assist students in collaborative upskilling and knowledge exchange through workshops, seminars, lectures, internships, and joint research publications as a result of this industry-academia relationship. We recognise the importance of providing future graduates and job seekers with sufficient industry exposure in order to be job-ready in the difficult global marketplace.

We are very excited to collaborate with such a prestigious university as yours.

*Saurabh Shahane*
